

# Peter Spriggs

## Summary

---

So a bit about myself,

I'm Peter (or Pete), a keen Alias modeller and avid science fiction fan that loves everything from space travel to the growing electrification of our transport systems. When I'm not hard at work you'll usually find me socialising with friends at a local pub or else working on my own personal portfolio of 3D models at home.

## Work experience

---

### Faraday Future

July 2016 — November 2016 (4 months)

Alias digital modeller

During my time at Faraday Future I worked along side two other skilled Alias modellers within the UK to develop concept and production data. Unfortunately funding issues cut short my time with the company.

Non confidential products include:

Minor work on the FF91 Sports utility vehicle.

### Jaguar Land Rover

January 2015 — July 2016 (1 year, 6 months)

3D digital Artist (Alias)

Working alongside a professional team creating 3D designs for concept and production models.

Non confidential products include:

Extensive work on the all new Land Rover Discovery.

Extensive work on the updated Range Rover Royal State review vehicle.

### Geely Design

May 2014 — November 2014 (6 months)

Alias digital modeller

Working alongside a professional team on a range of exterior models in early concept phase.

### Jaguar Land Rover

October 2010 — May 2014 (2 years 7 months)

Alias digital designer/modeller

Working on several programs from concept through to production, full exteriors, interiors, stacking parts and details.

Non confidential projects include:

Extensive work on the Milner LRM-1 Offroad race car  
Minor work on the all new Range Rover Sport  
Moderate work on the Land Rover DC100 Concept cars  
Minor work on the Victoria Beckham Range Rover Evoque  
Extensive work on the Land Rover Vision Discovery Concept  
Extensive work on the Land Rover Discovery Sport, including the design of wheel style 521

## Concept Group Itl

Sept 2010 — October 2010 (1 month)

Alias digital designer/modeller

Working on a variety of projects within a small team of professionals for commercial companies.

## Plugin Design Ltd

June 2010 — July 2010 (1 month)

Alias digital designer/modeller

Working on a short term interior project for a major overseas OEM based in the United States, with a short turn around and tight deadlines.

## Jaguar Land Rover

April 2009 — Sept 2009 (5 months)

Alias digital Modeller

Internal work placement at Jaguar Land Rover based in Gaydon Warwickshire working on variety of production projects coupled with a design led student program.

# Skills

---

## Autodesk Alias Surface/Automotive

- Concept Surfacing/Sketch modelling
- Exterior and Interior modelling
- Detail modelling
- Limited A-class knowledge
- Mesh manipulation
- Accurate modelling to scans

## Autodesk Showcase

- Rendering
- Presentations
- Storyboards
- Animations
- Alternatives

## Autodesk VRED

- Rendering
- Camera animations
- Switches
- Decals

## Bunkspeed Drive/Shot

- Animations
- Quick renderings

## Adobe Photoshop

- Extensive knowledge

## Adobe Illustrator

- Basic Knowledge

# Education

---

Transport Design 1st class BA (Hons)

September 2006 — June 2010

Coventry University

I was first introduced to Alias in my 2nd year at Coventry and got to grips with the program quickly. During my course I also completed a 5 month industry placement at Jaguar Land Rover in 2009
